

Six Degrees GDPR Compliance Management Service

Understand your readiness for GDPR compliance now

What is our GDPR Compliance Management Service?

By gathering the information held by your organisation, the GDPR Compliance Management Service by Six Degrees identifies your readiness to meet the compliance aims for the General Data Protection Regulation and its associated requirements.

Choose the service option that's best for your business:

- **Automated GDPR Data Scan** of your technical environment highlighting where existing data is currently located, specifically related to Personal Identifiable Information (PII).
- **Consultant-led GDPR Readiness Assessment** of your existing processes and procedures, from which we offer suggestions on how these could be improved.

Our GDPR Services

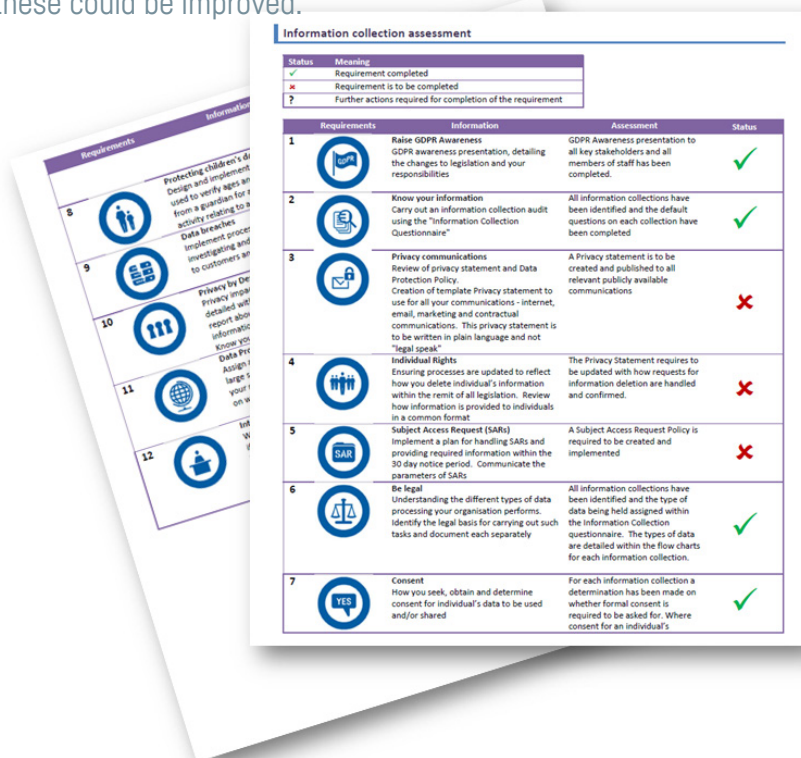

GDPR Data Scan Report

- Generated electronically by our Risk Intelligence software solution.
- The solution scans as many devices as requested.
- A detailed data report highlights existing PII data and the risks to compliance.
- Also provides detailed analysis of the devices and any vulnerabilities present.

GDPR Readiness Assessment Report

- Generated via information in the GDPR Readiness Assessment.
- Provides an overview of how compliant your organisation is within the boundaries of the GDPR from a technical perspective.
- The report contains graphical representations of data and how the data is used within your organisation, in these key areas:

- Executive Summary
- Information Gathering & Data Flows
- Data Protection Impact Analysis
