Microsoft 365 includes security, agility and performance features to suit all organisations. However, Microsoft 365's preconfigured settings can be enhanced to ensure your organisation is maximising the benefits it derives from its tenancy. Six Degrees delivers Managed Microsoft 365, a service that **enables your organisation to increase its Microsoft Secure Score and configure your Microsoft 365 tenancy to ensure the most appropriate levels of security, agility and performance.** Ongoing support and management will **ensure Centre for Internet Security benchmarks are maintained** and users receive **high levels of performance** at all times. Optimise the security, agility and performance of your Microsoft 365 tenancy with Managed Microsoft 365 from Six Degrees.

We lack the specialist security skills we need to protect our organisation from data breach.	Our cyber security specialists will provide expert consultancy to your organisation.
We need to monitor our Microsoft 365 tenancy on a 24x7x365 basis.	Our managed service wrap-around continually monitors your Microsoft 365 tenancy.
We're unsure how to configure our Microsoft 365 tenancy to the optimal security levels.	We will align your Microsoft 365 tenancy's security configuration to your organisation's risk appetite.
We want to ensure we maximise the value we derive from our Microsoft 365 tenancy.	Our Microsoft technical experts will ensure you get the most from your Microsoft 365 tenancy.
We need to demonstrate that we operate in compliance with regulatory requirements.	Our Managed Microsoft 365 packages are aligned to CIS (Centre for Internet Security) standards.
We need access to ad hoc support and guidance.	Our flexible packages allow us to deliver expert support and consultancy when it's needed.

### Your Managed Microsoft 365 Journey

**Enhanced cyber security.** Managed Microsoft 365 enables your organisation to enhance its cyber security posture.

**Improved agility.** Proactively manage your Microsoft 365 tenancy to ensure it continues to align to regulatory and best practice standards.

**Increased performance.** Maintain a Microsoft 365 tenancy that continues to deliver optimal performance to end users.
