

SOLUTIONS OVERVIEW

Office Move Alive with technology

Moving office shouldn't mean a break in business, though it can be a hectic time for both IT and facilities departments.

How can our solution help you?

We can help ease the pain of an office move providing a smooth transition of your ICT services when you need it the most. We will make sure you stay connected to your customers and stakeholders at all times. Also ensuring your business critical data is fully backed up and your new office is connected in advance of your move, providing seamless business continuity.

How else can we help?

- Free IT audit - If you don't fully understand your office move requirements, our free IT audit will help plan your journey.
- Short lead time - We offer quick turnaround times as we have in house teams to design and deliver every part of your solution.
- Business growth - We can scale your IT infrastructure in line with your business growth in the most cost effective ways.
- Cost management - Our datacentres and SIP trunk solutions can provide efficient ways to reduce your capex spend and optimise business efficiency.
- Backup and recovery - Ensure your data is safe before, during and after your move with cloud storage.
- Hardware solutions - We can provide a range of Avaya products to compliment and improve your voice solutions.

From network design through to cloud hosting and unified communications, we can manage all of your requirements with efficiency and ease.
