

Public Sector Solutions

Six Degrees' government-approved public sector solutions enable effective digital transformation within your organisation, with simple procurement via the G-Cloud and Network Services frameworks. We work as your collaborative technology partner, supporting your mission-critical IT strategies to the benefit of both end users and citizens.

Six Degrees has worked as a partner to Central Government, GDS, NHS trusts, Local Authorities and emergency services for over 15 years. Our solutions deliver resource and cost efficiencies that enable you to focus on frontline services.

Central Government

Our solutions underpin digital transformation within Central Government, delivering real cost efficiencies as evidenced recently by Government Digital Service (GDS). Our solutions for Central Government provide the secure, stable foundations for digital transformation and offer the agility of working efficiently, anywhere to enable effective communication and collaboration.

- ✓ UK data sovereignty
- ✓ Government accredited ARK Data Centre presence
- ✓ ISO 27001 & 9001
- ✓ Public Services Network (PSN) & Internet Connectivity
- ✓ Hosting for Official/Official-Sensitive data

Local Government

Our Local Government solutions help Local Authorities put citizen services first. We are the digital transformation partner to migrate your legacy on-premise workloads to hybrid or public cloud, unlocking agility and cost efficiencies. Our suite of cloud-based collaboration tools also provide the platform for your people to work efficiently wherever they are and whatever the citizen need.

- ✓ Public Service Network (PSN) & Internet Connectivity
- ✓ Hosting for Official/Official-Sensitive data
- ✓ UK data sovereignty

Health and Social Care

Six Degrees offers secure and resilient digital transformation solutions to underpin your patient services. Our solutions offer the critical infrastructure needed to deliver patient care, and ensure continuity of your organisation's technology. We provide the stable foundations of secure, resilient infrastructure, the agility of the cloud and the efficiencies of cutting-edge communication and collaboration tools.

- ✓ Public Service Network (PSN) & Internet Connectivity
- ✓ Hosting for Official/Official-Sensitive data
- ✓ UK data sovereignty
- ✓ ISO 27001 & 9001

Policing & Justice

Six Degrees offers secure and resilient IT services for the criminal justice system and police forces to host mission-critical systems, enable mobile policing and support effective collaboration and communication across forces, units and other emergency services. Six Degrees' security arm, CNS Group, benefits from unrivalled first-hand personnel deployment experience within police constabularies.

- ✓ PSN connectivity for policing
- ✓ NCSC compliant protective monitoring services
- ✓ Hosting for Official-Sensitive data
- ✓ Government accredited ARK Data Centre presence
- ✓ Police Assured Site Facilities (PASF)
- ✓ UK data sovereignty
- ✓ SC-cleared employees

Education

Our education solutions help you put your students, staff and end users first. We are the digital transformation partner to migrate your legacy on-premise workloads to hybrid or public cloud, offering agility and cost efficiencies underpinned by optimum networks and backup. Our suite of communication and collaboration tools also provide the platform for your people to work efficiently, anywhere.

- ✓ Public Services Network (PSN) & Internet Connectivity
- ✓ Hosting for Official/Official-Sensitive data
- ✓ UK data sovereignty
- ✓ SC-cleared employees

Blue Light

Our services to blue light and emergency services help put citizens first. We are the digital transformation partner to support your IT strategies and provide agile and cost effective technology foundations and infrastructure. Our suite of collaboration tools also enables your people to communicate and respond efficiently wherever they are and whatever the citizen need.

- ✓ Public Service Network (PSN) & Internet Connectivity
- ✓ Hosting for Official/Official-Sensitive data (up to old IL4)
- ✓ UK data sovereignty

Stable Foundations - providing essential IT services and infrastructure to generate resource and cost efficiencies for the end user and citizen.

The Agile Workspace - equipping the public sector with the tools to empower their people to work effectively, anywhere.

Intelligent Growth - utilising technology, intelligence and expertise to help the public sector realise further efficiencies and free up costs and resources for frontline services.
