

VOICE ENABLED TEAMS

Make and receive voice and video calls through Microsoft Teams

Your people need to **communicate and collaborate seamlessly**, wherever they are. Securus Comms Voice Enabled Teams via Six Degrees voice services enables organisations to **make and receive voice and video calls through Microsoft Teams**. **Consolidate your Microsoft Teams** collaboration software with your unified communications platform, and **achieve cost efficiencies** whilst delivering a ubiquitous experience to your end users. We will **deploy Microsoft Phone System** for your organisation, ensuring you leverage the maximum benefits from Microsoft's transformational collaboration tool.

Microsoft Phone System

Calling in Teams starts with Microsoft Phone System. It provides the calling features every organisation needs, along with the ease of use and flexibility your users demand.

Give people the calling features they need to get business done, wherever they are and on whatever device. Get consultative transfers, music on hold, call park, and cloud voicemail in Teams.

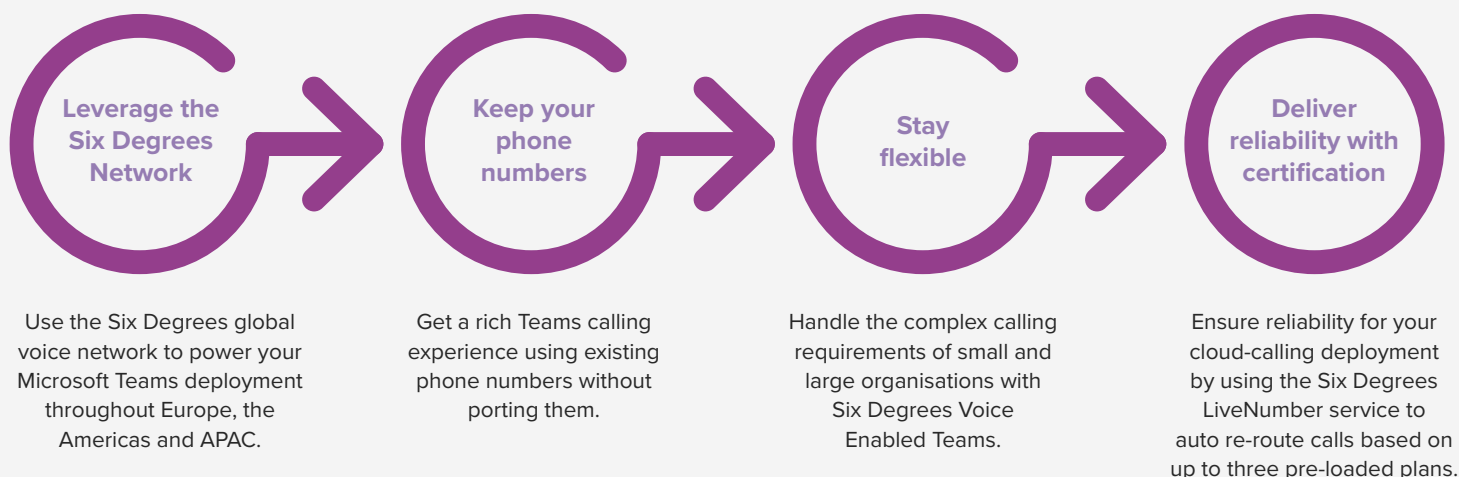

Deliver great collaborative experiences as part of Phone System in Microsoft Teams with features such as group call pickup, delegation, and shared line appearance.

Help to ensure every customer is answered and routed to the right queue with cloud auto attendants and call queues in Phone System.

Administer and monitor your calling in Microsoft 365 with the Teams admin centre and call quality dashboard. Save time for your IT professionals with a centralised experience.

Securus Comms Voice Enabled Teams

Enable people to use existing phone numbers with Teams Phone System for a complete calling experience that includes dial tone.

Make and receive voice and video calls through Microsoft Teams

Straightforward pricing model. When purchased through Securus Comms and Six Degrees, Microsoft Teams, Phone System and Direct Routing feature a straightforward per user per month pricing model.

Compliant voice, video and screen recording. Record all users regardless of location or device, store recordings to data sovereignty requirements with multi-level encryption, and follow compliance policies to ensure only required recordings are retained.

Meeting rooms. Six Degrees will supercharge your spaces to make them hybrid working friendly. We will scope the deployment and survey your meeting room, supply and install equipment, and deliver monitoring solutions for in-life visibility..

Microsoft 365 Data Protection. Microsoft 365 Data Protection, included as standard in our Premium package, delivers cloud-to-cloud backup that enables your organisation to access, control and protect Microsoft 365 data.

Advanced reporting. As part of the Advanced and Premium packages, Securus Comms will configure your Microsoft Teams reporting to ensure it delivers actionable insights that enable you to maintain secure, performant services.

Unlimited UK minutes. As part of the Advanced and Premium packages, Securus Comms Voice Enabled Teams features unlimited UK minutes, delivering exceptional value and minimising your organisation's voice spend.

Securus Comms have partnered with Six Degrees for many years providing the best of both worlds by giving the focused, nimble dedicated operator like Securus with the backing of the huge voice network and resources of Six Degrees.
