

# Unified Communications as a Service (UCaaS)

Six Degrees is a leading hosting and managed services provider, specialising in delivering application performance management, monitoring, reporting and security, deployed on hybrid public/private cloud platforms of innovation. Everything Six Degrees does is underpinned by its own data centres, data network and voice switching infrastructure.

## Why do I need UCaaS?

Our UCaaS offering, in partnership with Avaya, has been designed to enable UK-based organisations to access voice, video and collaboration tools anywhere, anytime on any device. We're confident our solution provides you:

- **Productivity in workplace by enabling collaboration**
  - Easy to use tools that your staff will want to adopt
  - Work from anywhere and on any device
  - Be in contact with customers, suppliers, partners & colleagues alike
- **Business continuity**
  - Delivers highly available communications platform
  - Implement Disaster Recovery plan in case of outage or major incident
- **Cost reduction**
  - Economic solution and reduces management costs
  - Focus on your core we'll do the chore...

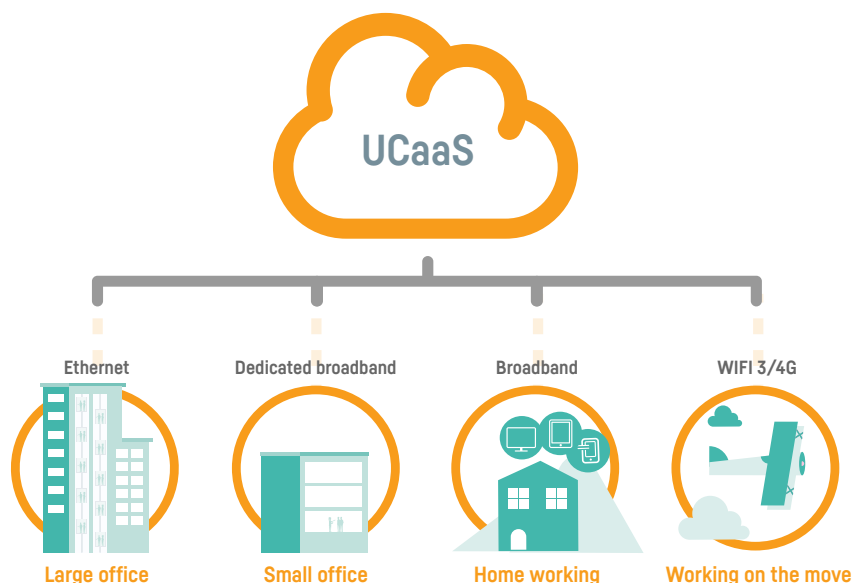

## What is our UCaaS offering?

Providing telephony and unified communications functionality, available across the globe, from the Cloud.

Consumed as an opex model with predictable costs.

A resilient, single tenanted service, delivered from the Six Degrees Data Centres, using our next generation voice and data network.

Based on feature rich easy to use Avaya technology that can be customised and integrated in to your business.
